EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: The title has been changed to "Liquid crystal display with mirror mode having top reflective polarizer" to more adequately describe the nature of the invention.

Allowable Subject Matter

Claims 1-3, and 6-36 are allowed.

The following is an examiner's statement of reasons for allowance: There is no prior art of record that teaches a display device with a first reflective polarized light selecting unit on a viewing side of a transmitting polarizing axis varying unit (liquid crystal cell) with another transmissive polarized light selecting unit between the reflective polarizer and the liquid crystal with an additional polarizer disposed on the rear side of the transmitting polarizing axis varying unit of the transmissive or reflective type without an additional transmitting polarizing axis varying unit disposed on the viewing side of the first polarized light selecting unit. Kaneko as previously cited discloses the claimed structure with the exception of an additional liquid crystal cell disposed on the reflective polarizer and removing the transmitting polarizing axis varying unit would require removing the reflective polarizer since the reference makes

clear that the reflective polarizer functions as a reflector in the top transmitting polarizing axis varying unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
